

*The Force is in Chains!*

## O NAMA ABOUT US

Naša firma je osnovana krajem 1960 godine. Proizvodnjom raznih lanaca se bavi od 1963 godine. Od 1978 godine započeli smo proizvodnju pribora i naprava za domaćinstvo od metala i plastike, a od 1996 godine proizvodimo i plastične kofe za fabrike boje i lakova.

Firma je 1990 godine započela privatizaciju, a danas je 84% kapitala u privatnom vlasništvu.

AD SILA danas spada među vodeće evropske proizvođače lanaca za široku potrošnju po kvalitetu izrade, površinskoj zaštiti i širokog asortimana proizvoda. U proizvodnji pribora za domaćinstvo i plastičnih kofa je među vodećim u Srbiji.

Evropski kvalitet naših proizvoda i poslovnosti garantuju naši saradnici.

### COMPANY INTRODUCTION - SILA CORPORATION

Our company was established at the end of 1960. Since 1963 it was basically engaged in manufacturing of different type of chains. In 1978 the company began the production of kitchen wares - especially from metal and plastic - namely as: knife sets, cake sets, cake forms and sets for barbecue/grill. Our company currently has its own galvanization system for the following coatings: Zn, Ni, Cr, Cu and Brass. Presently we export our main production. Due to the importance of quality production, in 2008 we applied the Quality Management System ISO 9001:2008 and 14001:2004. The company is 100% privately owned since 1990.

Our main products are different kind of chains (for general use, welded chains, victory chains, clock chains, twisted link curb chains, etc.), and plastic products since 1996, like oval buckets and even plastic chains. Plastic products are made on 14 different machines, by injection moulding. Within a short time we became leader suppliers of the kitchen wares and plastic buckets in Serbia. Besides, we also produce equipment for pets (leather necklaces, cages, etc.). Our new products are polypropylene or PP-tex ropes (in different sizes, colour and package).

Nowadays, "Sila" Corporation is one of the leader manufacturers in Europe on the field of general chain production, due to the quality production, high surface treatment-system and its range scale of products. Our partners give proof of our efficiency and quality production, as well.

Please feel free to contact us for any further information or price quotation, in case of your interest. We hope a long-term relationship can be established between our companies.
